

WHO IS UKWAZI?

Ukwazi is a Zulu word that means “to know”. This aptly describes the nature of our business: leveraging technical and industry insight and expertise to drive commercial success and sector development.

We are one of the largest specialist
mining service providers in Africa

Focused on:

- Bankable feasibility studies
- Independent technical reports
- Engineering & infrastructure design
- Outsourced technical services
- Training and technical skills transfer
- Project and execution contract management
- Build and operate mining infrastructure
- Open pit and dredge mining contracting
- Project implementation, team design & operations
- Integration of mining technical systems

We deliver independent advisory, technical systems integration and operational contract mining services, making us your ideal technical and execution partner.

Our technical mining engineering approach, combined with a strong industry experience allows for operational excellence, cost optimisation and continuous improvement.

Our advisory businesses are level 2 BBBEE contributors, committed to transparent and effective transformation within the industry, in partnership with our clients and technical partners.

OPERATIONS

SYSTEM
INTEGRATION

Our approach

We are committed to:

- Safety
- Risk mitigation
- Regulatory compliance
- Technical excellence and experience in mining
- Transparent engagement and reporting
- Developing innovative technology and cost-effective engineering solutions
- Enhanced productivity and profitability
- Providing local, on-the ground sector experts
- Driving skills development and job creation

Specialist mining service providers

What we do

We deliver independent advisory, technical systems integration and operational contract mining services, making us your ideal technical and execution partner.

ADVISORY

We deliver independent technical mining advisory and onsite services, including capacity building and knowledge transfer. Our experienced technical teams oversee solutions ranging from exploration management, engineering solutions and feasibility studies to onsite technical services and CPR/ITR.

- Onsite Technical Services
- Mining Studies
- CPR/ITR

“We focus on leveraging technical and industry insight and expertise to drive commercial success and sector development”

ADVISORY

OPERATIONS

SYSTEM
INTEGRATION

We offer:

OPERATIONS

Our outsourced mining contracting solutions optimise our clients' operations, reduce their costs, enhance safety on-site and add value to their businesses. Our expertise includes surface mining contracting, specialist contract mining and contract management.

- Open pit and dredge contracting
- Specialist contract mining services
- Mining contract management

TECHNICAL

SYSTEM INTEGRATION

We provide a holistic, integrated mining system that enhances efficiencies, whilst significantly decreasing operating costs. We do this by enabling separate, but standard, mining systems to function as a logical whole, facilitated by visual dashboards, integrated KPI reporting and the assimilation of specialised mining data analytics.

- Visual Dashboards
- KPI Reporting
- Mine Data Analytics
