

## Short-Term Planning Engineer

Are you a dynamic and determined short-term planning engineer? You could be our next hire! We are looking for a qualified candidate with the following competencies to start on the 3<sup>rd</sup> of January 2022:

1. Effective planning
    - a. Plan and facilitate day-to-day short-term activities
    - b. Provide timely and accurate monthly production schedules
    - c. Reconcile actual vs planned ore and waste mined
    - d. Formulate drill and blast designs
    - e. Facilitate integrated planning meetings
  2. Support and participate in a team environment
    - a. Achieve agreed upon KPIs
    - b. Continuously identify and address gaps
    - c. Achieve outlined goals through collaboration
    - d. Provide expert advice around industry standards for short-term planning
  3. Stakeholder engagement and management
    - a. Organise and package information into a usable format for colleagues, contractors and suppliers
    - b. Work with relevant parties to identify, prioritise and address issues related to short-term planning.
  4. Client relationship management
    - a. Manage expectations and provide accurate and effective planning services to all stakeholders
    - b. Establish and maintain relationships, in alignment with strategic business plans
- **Qualification**
    - Minimum: B.Tech or bachelor's degree in mining from a recognised university
  - **Experience**
    - 10 years' planning experience with a major mining company
    - Experience in coal, base metals, diamond, manganese and iron ore will be an advantage
    - Experience in both open pit and underground mining methods and planning strategies
  - **Job description**
    - Full competency in relevant mine planning software (e.g. Surpac/Mineshed, Datamine or OPMS)
    - Candidate must work from home, travel to site and/or provide on-site services, which will require relocation to the Northern Cape
