

We Are Looking For

A SENIOR MINE PLANNER

You could be our next hire! We are looking for a qualified candidate with the following competencies to form part of the Ukwazi mining team:

RESPONSIBILITIES

- Effective planning for MTP, LOM and all different types of studies such as a FS
- Plan and facilitate activities based on the relevant planning horizon, provide timely and accurate deliverables
- Facilitate integrated planning meetings and develop scenarios and identify optimisation options
- Full competency in relevant mine planning software (e.g. Surpac/Mineshed, Deswik, Datamine or OPMS)
- Support and participate in a team environment
- Stakeholder engagement and management

REQUIREMENTS

- Minimum: B.Tech or bachelor's degree in mining from a recognised university
- 10 years' planning experience with a major mining company
- Experience in coal, base metals, diamond, manganese and iron ore will be an advantage
- Experience in massive mining and sub-level caving, and open pit and underground mining methods and planning strategies
